To Whom it may concern:  
Since January of 1998, Nightingale Homecare has provided in-home care for my wife who was paralyzed. I called Nightingale and they impressed us. We decided to use them. God was with us, because we could not have made a better choice! The quality of care provided by Nightingale exceeded my wildest expectations. From the Nurses, to the Supervisors, to the Management... We had a feeling of confidence in the company. They were all good to me and very helpful.  
All I can say to Nightingale Homecare is Thank you, Thank you!  
- Richard C. Taylor

Dear potential home care client:  
Nightingale Homecare is compassionate, caring and very responsive. Day after day our Nightingale staff truly helped our Mom and our whole family. Nightingale Homecare was "pure golden" in our time of greatest need.

Sincerely,  
Mary Pat McChesney and Family

To Whom it may concern:  
The quality of care that I receive from Nightingale Homecare is consistently outstanding. After years of frustration with other agencies I was thrilled to find a company that is thoroughly professional and caring from the nursing staff to the office personnel. My caregivers have become like family to me and it has increased my quality of life greatly.
