Wound/Ostomy Care

Effective use of the myriad specialty wound and stoma care products on the market today requires advanced skill and a comprehensive knowledge base. The wound care team at Nightingale Homecare, under the leadership of its Certified Wound Nurse, has the requisite knowledge and skill to provide excellent outcomes for many types of problem wounds.

- **Wound VAC**
- **Pressure ulcers**
- **Arterial ulcers**
- **Diabetic ulcers**
- **Venous stasis ulcers**
- **Surgical wounds**
- **Fistulas**
- **Incontinence-related skin breakdown**
- **Stomas**

NIGHTINGALE'S WOUND AND OSTOMY TEAM:

- Maximize client comfort and independence with appropriate wound and ostomy products
- Work with the patient and/or caregivers to address factors that affect wound healing, such as environmental hygiene, nutrition, pressure, circulation, and/or diabetes control
- Prevent infection and other complications that contribute to hospital readmissions
- Maintain a comprehensive and current knowledge base of principles, practices and products for wound and ostomy care
