JOURNEYS

PARKINSON'S & MOVEMENT DISORDER PROGRAM

The staff of Nightingale Homecare is dedicated to providing clinically proven interventions to those with Parkinson's Disease and other movement disorders through our JOURNEYS Program.

Our ***BIG and LOUD*** certified therapists evaluate, educate and support patients to significantly improve their movement and speech.

IMPROVEMENTS THAT CAN BE EXPECTED:

- Better fine motor function for tasks like buttoning buttons or brushing teeth
- Better mobility for tasks like getting in and out of bed, getting in and out of the car, completing household tasks
- Better, louder and clearer speech
- Effective swallowing
- Better facial muscle control for blinking and smiling
- Better balance to prevent falls

See how our proven JOURNEYS Program can bring about major improvements for patients with Parkinson's Disease and other movement disorders. ***Watch*** as the improved ability to communicate reduces depression and isolation and boosts confidence. ***Observe*** how the improvement in overall movement reduces the risk of falls and allows patients to better care for themselves.
